

HEXUN

Device Procurement & Deployment

Technology devices designed
for business operations.

We understand operational needs first,
then deliver the right devices and deployment strategy.

01 ANALISIS

Understand your operations

02 PENGADAAN

Source the right devices

03 IMPLEMENTASI

Configure & roll out

04 DUKUNGAN

Maintain & optimize

We do not start from products.

Kami memulai dari kebutuhan operasional.

TRADITIONAL

3 Perencanaan perangkat

4 Implementasi

Common Problems We Solve

Sebagian besar bisnis mengalami kendala ini tanpa partner pengadaan yang terstruktur.

✘ Spesifikasi perangkat tidak sesuai

✘ Proses implementasi lambat

✘ Tidak ada kontrol aset

✘ Distribusi perangkat tidak terorganisir

✘ Ketidaksesuaian antar perangkat

✘ Standarisasi perangkat berbeda-beda

✘ Kendala garansi & klaim

✘ Tidak ada dukungan after-sales

Our Approach

A structured four-phase process — built for enterprise operational readiness.

Solutions We Provide

Workplace Devices

Laptop

Desktop

Workstation

Mini PC

Operational Devices

POS

Barcode Scanner

Attendance

Printer

UPS

Operational Implementation Flow

Enterprise rollout roadmap — from requirement to live deployment.

Each step is documented and signed off before proceeding.

*Technology devices should support
productivity
— not create complexity.*
